TRAVEL TO CAMP

The American Camping Association (ACA) recommends the following guidelines for transporting students to camp.

- Assign a drop-off schedule
- Appoint two chaperones to load and unload luggage using gloves and masks. (From there, campers carry their own bags.)
- Remind campers to cough into their elbows and have personal hand sanitizer accessible.
- Conduct a health screening
- Assign seats
- Roll the windows down an inch or two
- Masks are mandatory for every passenger
- Clean as you go
- Rest stops should be minimized

GENERAL CAMPUS GUIDELINES

- One Camp with Four Houses: At camp, churches will be assigned to one of four “houses.” These houses will stay in the same dorms, eat meals together, group together (still distanced) for large group gatherings, and participate in small group Bible study together.
- Daily Wellness Checks by group leaders.
- Leaving Campus: Movement off-campus will be severely restricted.
- Housing: The four houses will be assigned to different cabins, floors, or wings, as much as possible given the housing provided to Passport.
- Personal Hygiene: Mask wearing will be required at all times, except sleeping, swimming, and showers. Hand Washing will be encouraged throughout the day by PASSPORT Staff and Group Leaders.
- We suggest that every camper bring a string-style backpack, to keep up with the following items: Additional Masks, Hand Sanitizer, Bible, Camp Passport, Pencil or Pen, water bottle, and wipes.
- Meals: Each house will have assigned meal times to sit by church groups for quick meals.

SUMMER TEAM SAFETY

PASSPORT is taking some extraordinary steps to ensure that our Staff are healthy and free of COVID-19 leading up to and during the summer.

Summer staffers are required to:

- Receive the COVID-19 essential workers vaccine
- Self-quarantine for 10 days before arriving for training week
- Attend an extended 14 day regulated training week
- Complete COVID-19 readiness training
- Wear a mask for all camp activities
- Comply with restrictions on travel away from camp. Visitors to camp will be prohibited.
- Stay 6-feet from campers and chaperones at all times
- When needed for a camp situation such as a camper injury, to make sure to not expose campers for more than 15 minutes in a 24-hour period.

POST CAMP COMM

Should a camper exhibit major symptoms within 7 days of returning home from camp and test positive for COVID-19, Group Leaders are asked to notify Passport. We will then initiate contact tracing protocols so that others in that specific house can be notified. Those house participants will be able to determine their group's level of exposure risk and possible response.
