

Well Child Policy

Parents: For the protection of all our preschoolers, please adhere to these guidelines when determining if you should bring your child to Johns Creek Baptist Church.

A well child has:

- No fever over 99.6° currently or for the last 24 hours.
- No vomiting or diarrhea currently or for the last 24 hours.
- No green, runny nose from onset through one week.
- No childhood diseases such as chickenpox, mumps, measles, rubella, pertussis, or scarlet fever.
- No cough.
- No unexplained rashes.
- No eye infections.
- No skin infections (impetigo, boils or ringworm).

If a child currently has any of the above symptoms, the teacher will not be able to accept him/her into preschool. If a child *develops* any of the above symptoms while in our care, we will ask you to come get him/her. We cannot administer medication of any kind.

Your cooperation will protect the health of all our children.

Please call us if you have any questions.

We look forward to seeing you again when everyone is healthy!
